28	29	30	31 Blue Water Electric onsite to go over list with Bill Todd about issues to be fixed	01	02	03
04	05	Notes: Crack in stack 01 shower pipe project started. A crack in the sewage pipe in PH1 was found and replaced during the stack 1 project. A leak was discovered in 501 during testing and a hole was cut in 401 shower ceiling for repair. Fire mud and insulation installed for new pipe. Bass did the annual stand pipe and hose inspection and the annual fire pump inspection. Pool failed inspection and was closed by the city the afternoon of the 9th. Nothing was wrong with the pool itself, violations were signage and and items in the pump area. Pool violations were fixed by the 11th and the city reopened the pool the morning of the 15th. Victor removed the old pool furniture. Terrano Stack 1 project completed and all debris removed. Bill Todd identified electrical issues that need addressed and he met with Blue Water Electric. Started distributing contractor card fobs to owners.
