Bluewater Electric onsite for broken exit sign on top floor.	19 Worthington Security onsite for camera installation.	20 Worthington Security onsite for camera installation.	21	22	23
24 Sharon Dowling met with Watermark Construction about pool area issue.	25	26	27	28	29 Paradise Plumbing onsite to fix social room A/C issue.	30 Memorial Day Cookout 5:00pm
31	01	Notes: We continue to get ideas about how to fix the pool area that eroded underneath the SW corner of the pool area pavers. It is approximately 5' across going under the furthest round table. Cameras were installed but an electrical outlet and an internet connection is required before the system can be activated. Bluewater Electric has been swamped and unable to get here to put in the outlet. Bluewater Electric will be asked if they can run the internet connection and Worthington Security has been contacted to ask for recommendations if Bluewater Electric cannot do it.
