24	25	26	27	28	29	30
31	01	Notes: The internal inspection is being done by an engineer using video of the pipe lining work. The city is requiring an engineer. Pipe Lining Technologies does not do asphalt repair so management is reaching out the All County Paving and Sealing to include the repairs at the garage entrances along with the paving sealing. Mike Bisaha cleaned the grill. Owners using the grill should be checking the drip pan in the back. We have additional drip pans in the tool room. If you need one, please inform a board member.
