12	13 Hillman attempted to service generator but key was not in lock box. Mike Bisaha put key in lock box tonight.	14	15	16	17	18
19	20	21 Amazon Pest treated unit 403 front door for termite issues. Peter Tedone accompanied Amazon Pest to survey the other unit doors for termite activity.	22	23 Blue Water Electric worked on stairway lighting. Both stairways were out completely. South side fixed and up to 4th floor on North side.	24	25
26 Board Meeting 5pm Blue Water Electric finished working on North side stairway. One light was throwing the breaker. Six lights need replaced.	27	28	29 Hillman was scheduled to service generator but was a no show due to storm approaching. Rick Goldfarb videotaped the property preparing for the storm.	30 Storm preparation begins.	31	01
02	03	Notes: Hillman has been terrible about communicating when they would be on property for generator maintenance since the beginning of the year. Countless attempts to correct this has not been successful. A patio storage box was ordered for the pool to store the pool noodles and other pool items. The storage box can also provide additional seating at the pool area. Amazon Pest treated all the front unit doors in November 2018 and the warranty covers one year. Other doors affected by termite activity will be treated in September after Sharon Dowling returns.
